Videospheres

Videospheres are a new high-impact image display system creating video or computer graphics projection in large inflatable spheres.

CITYSPHERE® are 1m diameter spheres with 360 ° computer graphic projections. The images are visible from all sides of the balloon. Cityspheres are for indoor applications.

HELIOSPHERE® are large balloons with 180 ° images generated by an on-board projection system. Heliospheres are filled with air or helium and available in sizes ranging from 2.5 to 7m diameters. They can be installed on the floor, airlifted up to 50m or suspended. Heliospheres are for both outdoor and indoor applications.

Technical Specifications

CITYSPHERE

- Available in 1m diameter only
- Inflation: air compressor
- Can be suspended or installed on floor
- Input: Computer XGA only
- Weight: 15 Kg
- A/C required: 220V 50Hz

HELIOSPHERE (HELIUM)

- Helium inflation (inert gas)
- Available in following sizes: 6m, 7m (diameter)
- Maximum airlifting height: 50 m from ground
- Maximum wind speed: 35 Km/h
- Attached by 4 powered winches
- Input: Computer XGA, Mac, Video (PAL)

HELIOSPHERE (AIR)

- Available in following sizes: 2.5, 3, 4, 6 and 7m (diameter)
- Can be suspended or moored on floor
- Input: Computer XGA, Mac, Video (PAL)
